WOULD AMEND SUFFRAGISTS IN QUAIL GAME SESSION PAY HONOR TO

Some Hunters Favor, Shorter Memory of Susan B. Anthony. (Season for Protection of the Birds.

Phoenix, Ariz., Feb. 15.—That the

The quail are beginning to mate sportsmen and hunters. "In a number of the birds killed in the past few days eggs were found, and I don't be-Heve a true sportsman would be guilty of killing the birds under such circumstances. I am through shooting for the season, and I believe that the legislature should amend the game law closing the quail season Feb. 1.

"Several parties were contemplating a hunt Sunday next, but when I informed them of the existing state of affairs they cancelled their engagements. A man who shoots one quall now is practically killing twenty at least. The birds raise two flocks each year, when they mate this early in the season, and the early spring birds generally hatch in the fall. A quall family averages about fifteen or sixin a good year, when mating commences as early as this year, so that all hunters can look forward to a plentiful quail year next season. Quail are plentiful now and one can readily imagine how thick they will be next year, when three more generations are added to the present

It is the general belief of many hunters and others familiar with game birds, especially quail, that an early spring may be confidently looked forward to when the birds commence to mate early, as is the case this year.

COAL DISCOVERED ON GREENE GROUND

WORK OF PROSPECTING GROUND WILL AWAIT COL. GREENE'S PERSONAL INSPECTION.

Cananea, Feb. 15 .- J. S. Osgood and J. N. Houser returned the first of the week from the trip to the coal discovery made recently on ground of Col. W. C. Greene in the mountains back from San Jose station. They went there to examine the prospect and report upon it. Determination of the value of the find can only be reached through actual ospecting. The ledge which shows is in the bottom of an arroyo and has been exposed to the surface through washing done by water in the arroyo during the recent months. In quality the coal is bituminous and in some respects approaches near on the surface to coking quality. The ledge as exposed stands at a sharp angle, which is a condition not generally found in connection with coal bodies in the west. Examination of the lodisclosed that the ledge was undoubtedly in place and also disclosed much coal blossom about the hills and surrounding country. It is not probable that prospecting will be taken up actively on the ground until Col. Greene has opportunity to give the matter his personal consideration, which will pobably be on the occasion of his next visit to the city.

LAS VEGAS TO GET

PLATS FILED AT SANTA FE FOR ROAD TO RUN FROM DAW-SON TO THE ROCK ISLAND AT DURAN.

Santa Fe, N. M., Feb. 15 .- J. V. Bergen, right-of-way and tax agent of the El Paso and Southwestern system, with headquarters in El Paso, has spent the past few days in Santa Fe on business for his road. Mr. Bergen has filed in the United States land office here official plats of the definite location of the extension of the system Dawson railway, to a junction with per cent, the rate of two-tenths of a the El Paso and Rock Island railroad cent a bushel on full cargoes of grain between Torrance and Duran. The mileage from Dawson to the junction is about 200 miles. The line will pass through Las Vegas which will be the only town of any consequence on the new road. An entirely new territory will be opened by the extension. fax, Mora, San Miguel and Torrance. The definite survey of the entire extension is not yet finished, but maps of definite locations for three-fourths of the distance are ready and have been filed. Three surveys have been made via Las Vgas and it is not known yet which one will be selected as permanent, but the city of Las Vegas will be the main station on the

DORMAN TO MEASURE

LUMBER AT BLAND. John W. Dorman, of this city, has been appointed as a forest guard on the Jemez forest reserve by Forest Supervisor Leon F. Knelpp. Mr. Dorman will assume his duties tomorrov and for the present will be stationed at Bland, where he will be employed in scaling or measuring logs embraced in the sale of matured timber purchased by I. A. Dye, the Albuquerque lumberman, who has estabfished a sawmill at Bland.

Rising From the Grave.

manufacturer. Wm A. Fertwell, of Lucama. N. C., relates most remarkable experience. says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trou-ble is Bright's disease, in the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have trobuled me for years." Guaranteed by all druggists. Price only 60c.

Their Late Great and Lamented Leader.

Chicago, Ili., Feb. 15 .- The thirtygame laws of Arizona should be ninth annual convention of the Naamended to close the quall season tional Woman's Suffrage association February 1 instead of March 1, as was opened in the music hall and the law now stands, is the opinion of line art building yesterday. Delegates a number of local hunters who, while are in attendance from every state they keenly enjoy the hunt, do not in the union. This is the first conwish to see the quail entirely destroy- vention held without the presence of the great suffrage leader, the late Miss S. B. Anthony and as toalready," said one of the veteran day marks the anniversary of her birthday an impressive memorial program has been prepared. This morning's session was given to the drawing of plans for the work of the association for the coming year addresses on the work of Miss Anthony will occupy the evening sitting. During the convention which will last until the night of the 19th, one session will be devoted to a sympolsum on the industrial condition of women and children in this country This will be in charge of Miss Flor ence Kelly, of the National Consumers league. On the 16th the ques tion of child labor will be discussed in all its bearings and resolutions dealing with the matter will be for warded to congress immediately after their adoption. Elaborate plans of entertainment for the thousands of women who are attending the convention have been made by the club women of Chicago, irrespective of their attitude towards the woman's suffrage movement.

NEL SCHEME OPPOSED. London, Feb. 15 .- With the secre tary of war and all the heads of th military devartment in opposition the prevailing impression here now is that the channel tunnel will be abandoned. At a meeting of the imperial defence league in the army and navy club last night resolutions were passand Great Britain successfully invaded, the surrender of it would be many writers express the view mat and Take Teaching." it could be irremidiably destroyed in many ways long before it came to any question of surrender. As to the attitude of the French on the matter there is much diversity of opinion. Some Paris correspondents declare that they are greatly hurt by the disinclination of the English to establish this new bond of connection between the two countries, while other writers maintain that the French exhibit very little interest in the mat-ter one way or the other. The promoters have announced that they will quarter. fight the matter to a finish.

KEATS-SHELLEY MEMORIAL

FUND MATINEE HELD New York, Feb. 15 .- Edmund Sted-Shelley memorial fund, which was and Mrs. Cleveland, Baron Meyer des Morgan Planches, the ambassador of Italy; Esme Howard, charge d'affairs of MILITIA MEN DIS-Great Britain at Washington; Mrs. T. Douglas Robinson, General Horace Porter, Andrew Carnegie, Mrs. F. W. Vanderbilt, Richard Gilder and oth ers. The object of the fund is to com-A NEW RAILROAD plete the purchase of the house in Rome in which Keats lived and died. plete the purchase of the house in that negotiations for the purchase a full attendance of officers. are now nearly complete as all the money required had been raised.

GREATLY INCREASED. insurance companies in this city with or accidental. the exception of the Atlantic Mutual from London state that the advance Marine Insurance company. Advices in rates on cargoes of grain in first class vessels will amount to fully 25 obtain for various cargoes but in each instance a 25 per cent rate will be observed. The increase is due to the enormous amount of losses in the past year, and is now an absolute necessity from the companies standwill pass through the counties of Col- point. It is expected that the advance will go into effect on the 20th.

TO BUILD TORPEDO MANU-

Newport, R. I., Feb. 15 .- It has been decided to erect a naval torpedo station here for the manufacture of Bliss-Leavitt torpedoes which are now being made by a private fire and cost the government nearly \$8,-000 each. The government is under contract with this firm to build 500 torpedoes and at the present time is unable to turn out more than 100 a year. able to turn out 200 a year at the ommencement and enlargements of the plant from year to year will increase the output. The cost of the erection of the plant is estimated at \$155,000. It is not denied that the navy is in a serious way at present for want of torpedoes.

SAN FRANCISCO STREET

BONDS GO BEGGING. San Francisco, Feb. 15.—For the third time San Francisco has offered \$1,500,000 of street bonds and ceived no bids. It is difficult to de termine whether this is because the bonds are not regarded as a profitable investment at three and a half per cent or because of the lack of confidence in the present municipal administration. As the bonds are of such an amount as to bar the small investor legislation will be sought by which the bonds may be issued in

denominations of ten dollars which would place them in the reach of many thousands of people who have small savings which they would be giad to invest in safe securities, even at a low rate of interest.

NAMED IN PEARY'S HONOR.

WHITE REINDEERS

skins of the white reindeer, a rare species discovered by Commander Robert E. Peary and named by scientists in his honor, were presented to the American Museum of Natural History today with many litle known specimens of the Arctic SOLORES OFF FOR TORRANCE fauna. They are the first of the kind ever seen in this country and as the presented with them the taxidermist will have little trouble in mounting them. On receiving them Dr. G. A Allen, of the museum, thanked Mr Peary and announced that the gifts were an important contribution

ELECTRIFICATION OF

THE ERIE RAILROAD. New York, Feb. 15 .- It is announced that the \$12,000,000 to be raised for the electrification of the Eric while it is quite probable it may not be spent in 1908 either. The decision to electrify the line stands, however. The committee which now is investigating the feasibility of installing electrical equipment on the suburban lines still has the matter under consideration. When the electrification finally is accomplished 't is probable that the Erie will run its trains through the Hudson tunnels and bring its passengers to New

ENORMOUS SHIPMENTS

OF SULPHUR STARTS Brimstone, La., Feb. 15 .- A record shipment of sulphur commenced from here today. It consists of 19,-000 tons and forty system cars will be used each day in handling this big shipment. It is being forwarded to New Orleans via the Southern Pa-A s soon as the tracts of the Sabine & East Texas railroad are in full working order the export movethrough that port, shipments to be The greater part of the sulphur is for European ports.

CARLOAD OF ORE VALUED AT 50,000

Bisbee, Ariz., Feb. 15 .- A carload of copper glance (chalcocit(), reently taken from the 300-foot level of the old Queen mine at Superior, was valued at \$50,000. It is said that the mine contains large quantities of ore of this character, besides a great amount of high-grade carbonate of running as high as 35 per ent in the red metal.

the child labor question, and now everybody is kidding him.

A FAMILY

Scrofula is not a disease that is acquired, under ordinary circumstances It is a deep-seated family blood taint, handed down from generation to genthe firm, which operate in Brooklyn, eration, blighting the lives and sapping the vital forces of innocent persons who have inherited this legacy of disease. Parents who are blood relations The new factory will be or who have a consumptive tendency, or blood disease of any character, are sure to transmit it to their offspring, and it usually takes the form of Scrofula. Swollen glands, brittle bones, weak eyes, sores and eruptions on the body, Catarrh, and often deformities with hip disease, are the principal ways in which the trouble is manifested. In some cases the blood is so filled with scrofulous germs and poisons that from birth the sufferer is an object of pity of his claim, viz: Homestead entry because of suffering and a total lack of health, while in other instances No. 9297, made May 1, 1906, for the favorable surroundings and prudent living hold the disease in check until 84 SW4. Sec. 19, and N4 NW4. later in life. A deep-scated blood disease like Scrofula can only be reached Sec. 30, Tp. 9N., Range 6E., and that by the very best constitutional treatment.
